

MARK KENNETH GATDULA

FULL STACK WEB DEVELOPER

SUMMARY / OBJECTIVES / PROFILE

Full Stack Developer with 4+ years of experience building and optimizing web applications across diverse industries. Skilled in React, RedwoodJS, PayloadCMS, PHP, JavaScript, Laravel, Vue.js, PostgreSQL, TypeScript, and MySQL, with strong knowledge of modern development practices including Git, Docker, and Linux. Proven track record of delivering scalable solutions, improving system performance, and leading deployment processes in fast-paced environments.

EXPERIENCE

WEB/APPLICATION DEVELOPER | OGIS-PH(FASTTRACK PH)

DECEMBER 2023 – PRESENT

Key Achievements:

- BRP SRPlanner | October 2025 - Present
 - Implemented client-requested features using Payload CMS by customizing collections, fields, and access controls, working closely with the team to deliver flexible and secure CMS solutions.
- EPOD | August 2025 – October 2025
 - Supported project delivery as a DevOps by remediating vulnerability issues, applying security patches, and ensuring secure build and deployment pipelines.
- Master Data Tool(MDT) | June 2025 – August 2025
 - Implemented, enhanced, and optimized system features using RedwoodJS and PostgreSQL, ensuring performance, scalability, and alignment with evolving business requirements.
- Human Resources Information System (HRIS) | April 2025 – June 2025
 - Designed and developed a React.js-based Human Resource Information System (HRIS) to optimize employee data management, automate HR processes, and improve operational efficiency.
- Pepsi Philippines | December 2023 – December 2024
 - Delivered web development support for helpdesk tickets and system issues using PHP, Laravel, and Vue, while designing and optimizing system reports to ensure accuracy, performance, and timely delivery, with code managed through Git.
